in 1893, and married Mary Greer, a widow, in November of 1898. I was married under my right name of Parsons. I have been a drinking man, but have not touched a

drop since Jan. 17. So far as the crime with which I am charged is concerned I am as innocent as my life, and if I get forgiveness for them don't care what becomes of me in this case. I got into this through my own fool-Ishness. I made false statements before the court of inquiry. I can't explain why I did it, but I suppose it was because I wanted to make people think I knew something about the murder. I know absolutely nothing about the crime. The nearest I was to the place where Miss Schafer was murdered was over half a block away, at the doctor's office. I did not see her that night, never did see her and did not know there was such a woman living."

FACTS ABOUT THE OPENING OF ROSEBUD RESERVATION

South Dakota Land Held by Indians to Be Given to Homesteaders.

WASHINGTON, May 27 .- The proclamation of President Roosevelt throwing open concerning the character of the land, and which may be answered by the following statement of facts:

and is known as the Rosebud reservation. Registration for these lands will begin early in July, and Chamberlain and Yankton have been designated as the points of registry. Chamberlain is point of final en-

The land is valuable for diversified farming and corn is the principal crop. Portions of Gregory county that are too rough for farming are well adapted for raising cattle and hogs-a profitable occupation in

Improved farmland outside of the reservation sells for \$25; unimproved farmland ADMIRAL TOGO'S WORK; for \$15; grazing land for \$10 an acre.

Chamberlain, Platte, Geddes and Yankton, S. D., are the best points from which to enter the reservation.

Chamberlain is one of the points of registry (the first process in taking up land), of years been the favorite entry point of cattlemen and landmen to the transmisequipped to take care of those who will visit the Rosebud reservation. It has one large brick hotel and a dozen smaller ones

Best of all, there is a steamboat line running down the Missouri river from Chamberlain directly to the reservation, a distance of thirty miles. Two steamboats will make this trip during the summer, and afford convenient and comfortable transportation to the land opened for settlement. There is also a pontoon bridge across the Missouri river at Chamberlain for the use of those who prefer horses or teams to the boats. The roads are excellent. Chamberlain is the Western terminus of he Iowa and Dakota divisions of the Chicago, Milwaukee & St. Paul Railway. Platte, S. D., is twelve miles from the eservation. Geddes, S. D., is on the latter line, eleven miles nearer Sioux City. It is a most ac-cessible point for landseekers going to the William Reed, of Hope, Ind., who came to Rosebud reservation. There is a good ferry across the Missouri river twelve miles southwest of Geddes, and the trip to the reservation can be quickly and comfortably made. The roads are good. Geddes has been the center of a big land movement

Yankton, S. D., is another point designated by the government as a point of registry for lands on the Rosebud reservation. It is sixty-one miles northwest of Sioux City, on the Platte line, and 578 from Chicago. One can leave Chicago at 6:05 p. m. and arrive at Yankton the next noon, or leave Chicago at 10:25 p. m. and reach QUEENSTOWN, May 27 .- Arrived: Cym-Yankton at 7:15 p. m. the next day. (CONCLUDED FROM FIRST PAGE.) of the Russians, their guns and their strength had been fully developed. To this end the Japanese began a series of careful reconnoissances, their officers working their way close enough to the Russian position to draw the enemy's fire. They thus secured fragments of shells for the purpose of ascertaining the caliber of the Russian guns. They discovered that the batteries on Nan-Shan hill included four howitzers of about fifteen centimeters caliber, several old-CHICAGO, May 27 .- Choking and gasping | style cannon and two quick-firing guns of twelve centimeters caliber. The Japanese discovered also a number of large implacements, but they did not learn the number of guns contained therein. These implace-

ments faced to the north and to the east. The guns fired by the Russians developed a range of 8,500 meters. Eight heavy guns posted on the Russian right in the vicinity of Hu-Shang-Tao also were discovered and another strong Russian position developed by these reconnoissances was on another hill southwest of Nan-Shan hill, where the Russians had a series of shelter trenches. On the shore of Tallen-Wan bay, close to the head of the bay, the Russians had established a series of positions. Here were set up the searchlights which nightly played over the Japanese angle in the hills to the northeast.

Further reconnoissances developed the fact that west of Liu-Chia-Tien the Russians had no defenses. Extending to the northward from Yen-Chia-Tien to the west coast of the Liao-Tung peninsula there were no defenses whatever except the force posted at Kin-Chou. This gap in the defense was a fatal defect in the Russian position, and when it was perceived the Japanese extended their right to the north and east, enveloping Kin-Chou and the Russian extreme right. The Japanese left also was extended to Wang-Chia-Tung, on the shore of Talien-Wan bay, and the center moved forward.

JAPANESE SHELLED BY GUNBOAT.

Wednesday morning at 5:30 o'clock the Japanese attacked Kin-Chou, and for three hours they had an artillery duel with the batteries on Nan-Shan hill. The Russian gunners searched the Japanese lines with their fire, but failed to inflict much damage. The battle was resumed at dawn on Tuesday. Three Japanese gunboats then entered Kin-Chou bay, and in co-operation slan positions on Nan-Shan hill. A Russian gunboat in Tallen-Wan bay steamed close to the shore and shelled the Japanese left. TOKIO, May 27.-Vice Admiral Togo has now established a complete blockade around the southern end of the Liao-Tung peninsula. This completely envelops Port Arthur from the seaward, and probably marks the opening of the final investment

from Vice Admiral Togo: "The gunboats the first torpedo boat flotilla, under Captain Nishiyama, reached Kin-Chou bay on the evening of Wednesday. From dawn of Thursday the vessels co-operated with the army in bombarding Suchaton. The Amagi and the Chokai went in close and bombarded all day. At 11 o'clock in the morning the enemy retreated from Suchaton, but they continued to fire from a position behind Suchaton. Our casualties were ten, including Captain Hayashi, of the Chokai, who was killed."

Subsequent reports indicate that the storming of Nan-Shan hill yesterday was a bloody affair. The Japanese first centered their fire on the Russian batteries, in which work they were aided by four gunboats from Kin-Chou bay. They succeeded in silencing many of the enemy's guns. The Russians had constructed a series of trenches around the hill on a terrace protected by wire entanglements and other such devices. The Japanese made a series population is about 1,200, and there are a of rushes, but they were in vain. The deadly rifle and cannon fire of the enemy checked them repeatedly. Finally, at 3 o'clock in the afternoon the Japanese reformed and stormed the crest of the hill. The Russians held to their position doggedly and it was 7 o'clock in the evening before the Japanese finally gained possession of the ridge.

ST. Curiously enough, the news o the Japanese disaster affoat came on similar holiday, the Emperor's birthday. While there was little information in government circles regarding the Russian efeat, the news caused the celebrations at Tsarskye-Selo to be shortened. Only a brief service was celebrated in the chapel. instead of the customary litany, and the Emperor spent the remainder of the day in

he transaction of business. It was rumored late to-night that General Kuropatkin had telegraphed some details direct to Minister of War Sakharoff, which will not be transmitted to the E'nperor until to-morrow. The general staff, n view of the foreign news of the capture of Kin-Chou, admitted that there was little now to hinder a Japanese advance on Port Arthur itself, and that the actual siege of the Gibraltar of the East had hegun in earnest.
